### CFTV

Heat Shrink Adhesive Lined Tubing

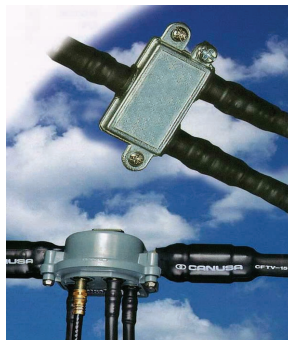

- The leading CATV sealing solution
- Proven adhesive/sealant
- Split resistant
- Thermochromatic lines for ease of installation

### CFSP

Heat Shrink Fibre Optic Splice Protectors

- Pre-shrunk ends for ease of use
- Stainless steel reinforcing member
- Clear for easy splice centering
- Meets Bellcore GR4301, Level 1

### DROP Tubing

Thin Wall Heat Shrink Tubing for Drop Connections

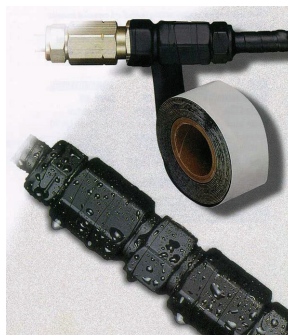

- Inner adhesive seals connection completely
- Requires limited heat to install
- Provides strain relief
- Accommodates all F connectors

### CFTV QuickSeal™

Wrap-around Repair Sleeve

- Repairs and protects cables and connectors
- No disconnect shutdown required
- No metal rail required
- 3:1 shrink ratio

### CTB-15

Self Amalgamating Tape

- Protects hard to reach locations
- No flame or heat required
- Covers any shape
- Clean strippable

### CPX-100

Unlined Thin Wall Heat Shrink Tubing

- For general, non-sealing applications
- Ideal for bundling cables
- Several colours, excellent for ID purposes
- Provides strain relief

### CCAP

Adhesive Lined, Heat Shrink End Caps

- Seals cables and conduit
- Keeps moisture out
- 3:1 shrink ratio
- Thermochromatic lines for ease of installation

### CGEL

Gel Filled Enclosure for Drop Splice Protection

- Single piece, clam shell design
- Provides complete moisture protection
- Accommodates wide range of 59/6/7 connectors and cables
- Meets SCTE IPS-TP-013
