### DESCRIPTION

The compact X BOARD XB 500 FTTX is a universal professional cable drum reel and unwinder for all types of cables and pipes (core cables, cable rings, cable drums, empty pipes, ropes and cable drums). It enables trouble-free and rational working without tangled cables. The X BOARD XB 500 FTTX can be loaded up to 800 kg and is suitable for almost any type of drum. The XB 500 FTTX is especially suitable for unwinding fibre glass cables with or without terminals (Commscope, Corning). **Especially suitable for damaged cable drums.**

The height-adjustable lid is perfectly designed to secure loose cables, cable rings or pipes in the X BOARD XB 500, thereby preventing uncontrolled cable unwinding. 12 rubberized feet ensure a non-slip and secure stand. Ideal for protecting surfaces for already finished floor coverings.

**Application movie:** you can watch a short, very informative application movie by scanning the QR code or on [www.runpotec.com](http://www.runpotec.com).
